Subject: Parents as Teachers (PAT) FY13 Final Payment Information

This message is being sent on behalf of Lana Brooks, Supervisor, DESE-Early Learning

The Early Learning section has completed processing the FY13 Parents as Teachers Final Reports and final payment. Please be advised that districts will receive their final payment on May 31st. Programs were paid to allocation for both Parent Education services and Screening services. For those programs that exceeded their allocation, additional funds were available to reimburse overages as follows:

High Needs Prenatal to Kindergarten Entry - 100%

Non High Needs Prenatal to Three - Approximately 54%

Screening for Children 3 Months to Age Three - 100%.

Please access the "Payment Transmittal" which is available through the Web Application System for payment amounts.

As an important reminder, all school districts must provide parent education services in FY14. Training opportunities for new parent educators can be accessed from the PAT national office website. There is an opportunity scheduled for July in the Columbia area and details coming for a training in the Kansas City area for early August. Be sure to visit the DESE Early Learning website for information regarding reimbursement for curriculum training. We certainly appreciate the work of each program and look forward to the opportunities ahead.
